

THE BRITISH COLUMBIAN.

No. 11, Vol. 4.

NEW WESTMINSTER, WEDNESDAY, MARCH 23, 1864.

Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and is delivered by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion is made to obtain reliable statistics respecting the country generally.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, MAR. 23, 1864.

THE "COLONIST'S" VERACITY.

We clip the following from the *Colonist* of Friday last:

"The good people of the capital are much exercised as to the propriety of according a reception to their expected governor. The *Columbian*, with its accustomed refined taste, disapproves of any expression of feeling either towards the retiring or coming representatives of Her Majesty—chiefly, it would appear, because the Victorians have taken that means of expressing their loyalty."

It would indeed be difficult to conceive of a more wanton piece of misrepresentation than the above. In the two last impressions we explained pretty fully our views respecting the subject of giving a public demonstration to the old and to the new Governors; and in doing so we certainly said nothing to justify the remarks of our contemporary. Indeed he displays very great presumption in supposing that we would be influenced either the one way or the other by the course the people of Victoria might think proper to adopt. We stated very distinctly that we were opposed to a demonstration in favor of Governor Douglas because his policy has always been, and is still, hostile to our interests; and to give such a demonstration would be to stultify our past course and weaken our influence in the future. We never wrote a single word against an expression of feeling towards the new Governor, but the very reverse. True, we did express ourselves to be opposed to such a demonstration as the people of Victoria are giving their new Governor, because we believe they are making far more fuss and parade than is seemly on such an occasion. It is only a slight improvement upon the bright, thoroughly original idea they first conceived of feeding the old and new Governors out of the same pot! No one would regret more than ourselves the absence of any public expression of feeling on the event of the arrival of the new Governor. But we would infinitely prefer that there should be no demonstration to seeing the people make fools of themselves.

The first sentence in the above paragraph from the *Colonist* is also untrue. The people of this city were never in a less excited state than now. There has been no movement, no excitement, and scarcely a remark respecting the subject alluded to. We repeat, in conclusion, for the benefit of our obtuse contemporary of the *Colonist*, for we may safely assume he is the only man to whom we have not made ourselves clearly understood, that out of no disrespect to the man, but upon principle and out of self-respect we are opposed to any public demonstration being given to Governor Douglas; and that we are in favor of giving Governor Seymour a fitting public reception when the proper period arrives; and, finally, that in doing so we do not intend either copying after, or being deterred by, the people of Victoria.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the only newspaper published in British Columbia, and is read by every business man from New Westminster to the Rocky Mountains, and is circulated as an advertising medium for the Colony. W. F. HARRIS, in Victoria, and T. H. BROWN, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, MAR. 23, 1864.

A MOUNTED POLICE.

The question of establishing a Mounted Police Force for British Columbia is before our Legislative Council. However desirable such an institution may be we would recommend the greatest caution in its establishment, if, indeed, the Colony is prepared to bear the expense of maintaining such a force. To be effective a Mounted Police Force would need to be very large, and, in the present state of the Colony, the expense of keeping it up would be something enormous—even greater than that of the ill-advised, ill-devised and ill-fated Gold Escort.

Several daring murders and robberies have undoubtedly been committed in the country, and doubtless others have been quietly perpetrated, of which nothing is known. But, after all, the history of British Columbia will stand a very favorable comparison with that of other gold countries in respect to crime. We think, therefore, that the remarkable immunity from such crimes as would naturally demand an organization of this character, the paucity of our population and the smallness of the colonial revenue would lead to the conclusion that the Government would not be warranted, under present circumstances, in establishing so expensive an institution. The public good which might reasonably be expected to accrue would not, in our mind, justify the expenditure. It is not unworthy of remark, while upon this subject, that the opportunities for the perpetration of highway robberies are becoming less as our facilities for travel increase. Time was when the miner was obliged to trudge down through miles of solitary forest trail with his "swag of dust." Now he need not carry his own treasure, as there are various and reliable channels through which it can be transmitted at reasonable rates; nor need he travel on foot and alone as formerly, as we have now all the appliances usually found in older countries, such as stage coaches, steamboats, express wagons, &c. So that the necessity for a Mounted Police Force is really not as great as it was in 1862, and will continue yearly to decrease as the institutions of the country approach maturity.

Later from Cariboo.

Dates to the 12th inst.

From Hon. Robert T. Smith, who arrived in this city from Cariboo on Monday, we obtain the following interesting information. Mr. Smith made the trip to Yale in 8 days, which is remarkably quick for this season of the year. The weather was dry, mild and very agreeable. People were dressed much the same as in summer, and the mercury scarcely fell below zero for several weeks. A great deal of prospecting was going on, with the most encouraging results, especially in McArthur's Gulch.

The Tabasco Co. ran a tunnel 100 feet into the hill, 27 feet of which passed through a stratum of gravel 5 feet thick, all of which will pay from 25c. to \$2 50 to the pan! The Stoba Co., immediately below, struck the same stratum with like results. They sunk a shaft and ran a tunnel 100 feet. The Cain Co., adjoining the Tabasco Co. on the upper side, sunk a shaft 46 feet, striking the bed-rock and getting \$7 to the pan. The bed-rock at this point is 150 feet above the bed of Williams Creek. These companies will all be prepared to take out rich pay so soon as a supply of water can be had. These results, as may easily be imagined, caused great excitement and the usual rush to the spot. Claims were being staked off, building sites greedily secured, and a rival town is, of course, all but built.

In Conklin's Gulch, near the head, good prospects have also been struck in the hill.

In Stout's Gulch the Pioneer Co., who are located 400 feet above the saw-mill, have run a tunnel 325 feet into the hill, striking pay-dirt 7 feet thick, from which, with a quarter sluice head of water, they washed 12½ ounces the first day. The consequence is that all the ground along the gulch was immediately staked off. The Eureka Co., at the junction of Stout's Gulch and Williams Creek, have struck excellent prospects. They took out one nugget weighing 9 ounces and one dollar, of pure gold.

The Burns Tunnel Co. were working with short water.

The Caledonia Co. continue to take out 50 oz. a day.

The Watson Co. are sinking a shaft in the side of the hill. At 72 feet they struck good pay.

The Marysville Co. are engaged in pumping water out of their shafts. The Nevewest Co. ditto.

On Canadian Creek, 4 miles from Williams, in an easterly direction, prospecting was going on with good results.

On a new creek, 15 miles from Williams, in a northerly direction, considerable prospecting was going on with very satisfactory results. A company of 50 men had been organized on this creek.

On Lowhee Creek a number of companies were at work preparing for spring. In the Sage Miller Claim much successful prospecting has been done in the hill. This company have been taking out and piling up dirt all winter which will pay from \$1 to \$2 to the pan. Their richest ground, however, lies in the bed of the creek.

The John Brown Claim—a bill claim—is turning out exceedingly well.

The Kelly Claim has been paying well all winter, considering the supply of water.

In the Sam Crain Claim they have been at work the greater part of the winter making preparations for spring. Their prospects are good. Quite a number of other companies have commenced operations in excellent spirits.

On Last Chance the prospects are very encouraging. In a hill claim, one mile from the mouth, \$3 to the pan is being obtained.

The markets have undergone little change since last advices. Flour was changing hands in bulk at 38 cts. Wright's freight sleighs reached Richfield on the 11th. Seven loaded sleighs were met on the way in, and by this time all the stuff which had been accumulating at Vanwinkle will probably have reached its destination, so that the supply will be abundant.

The bed-rock drain was being pushed forward with great vigor. It is expected this great and most important work will be completed by 1st June. At the first meeting after receipt of the charter nearly all the shares were subscribed for, and every one was taken before our informant left. The people on the creek take the deepest interest in this work, being thoroughly convinced that it is only by such organized and wisely directed effort the untold wealth of Williams Creek can be rendered available. The drain is now finished to a point 25 feet above the Elliott shaft, a distance of over 900 feet. It drained this shaft, which was filled with water, when within 25 feet of it. The following is a rough sketch of minutes of meeting, kindly handed to us:

The stockholders of the Bed-rock Drain Co., limited, met March 7th, 1864, at the house of Mr. A. R. Cook in Cameronton. Mr. James Wattie was called to the chair.

The number of the Board of Directors was determined to be five.

M. Raby, Jas. Wattie, Dwight Smith, John McLean and Ed. A. Wadham were chosen Directors. Mr. Thompson was elected Auditor. The selection of Secretary was left to the Directors. Adjourned to the third Saturday in April.

Directors met on March 8th. All present but Mr. E. A. Wadham.

Mr. Wattie was appointed Chairman and Mr. Anderson appointed Secretary. Mr. E. A. Wadham was appointed Treasurer, and it was determined that the work shall be continued vigorously, as it has been done heretofore.

"B. P. ANDERSON, Secretary."

FROM SHUSWAP.

We have just had the pleasure of a visit from Mr. McKay, Factor of the Hudson Bay Co. at Fort Kamloops, who arrived in this city on Monday. Mr. McKay is a highly intelligent gentleman who is thoroughly acquainted with the region of country commonly called the Shuswap District and any information from him respecting it is therefore worthy of credence and consideration. From him we gather that as a stock and farming country it is unequalled not only in British Columbia, but in the neighboring American Territory, while as a mineral district it is most valuable inasmuch as it will afford room, and fair remuneration to a very large population. There, unlike Cariboo, every man can work his own claim and make his \$5 to \$20 a day according to the richness of the ground and the appliances for working it. With the road-st implements an industrious man can average \$5 a day almost anywhere, while he can live upon one dollar. Like most parts this section is comparatively unknown and unprospected, yet for a distance of 40 miles up Cherry Creek, the only stream upon which anything worth notice has been done, diggings which yield the above returns are known to exist. All along the Shuswap river, however \$4 to \$5 to the rocker can be made. A small stream 7 or 8 miles from Kamloops, falling into the North river, is also known to be auriferous. Two Canadians took \$40 out of a "pocket" on this stream two years ago; and now some Mexicans are prospecting it, and report rich pay. About 100 Chinese have gone in and will commence operations upon Shuswap river while the richer diggings of Cherry Creek will probably be reserved for white men. As an illustration of the mildness of the climate Mr. McKay mentions the case of a Dutchman who worked on Cherry Creek during the winter, and who with a rocker washed his 100 buckets of dirt per diem during the month of January, averaging \$3.50 or 3½ cents to the bucket. These results, be it remembered, have been attained without the aid of plates and quicksilver, and as the dust is fine, it is fair to assume that the yield would be increased at least 25 per cent by the use of these agencies. Stock has wintered remarkably well in that quarter. As an illustration of this fact we saw Mr. McKay's saddle pony which he rode 60 miles a day in coming down, allowing it to forage for itself at night, and which is in excellent order. This pony has never been housed nor fed all winter.

From the same gentleman we learn an interesting incident connected with Indians mining on the Fraser 5 miles above Lytton, where some 30 to 40 red skins are engaged in actual mining, and making over \$20 a day to the hand. These Indians discovered a rich spot, and upon its becoming known to the Chinese population there they commenced to stake off claims, and gave the Indians to understand that they must leave, showing their licenses as authority for the intrusion. The Indians, indisposed to give way to so summary a demand made by "John," for whom, by the way, they entertain the most supreme contempt, first thought of resorting to arms, but upon consultation, finally decided to obtain miners licenses which they did by applying to Judge Ball who, after hearing the case explained, had no hesitation in granting them; and thus these aborigines have become free miners and are successfully and peaceably pursuing their avocation.

ARRIVAL OF TREASURE.

\$72,000.

Dietz & Nelson's Express arrived on Monday from Yale and Douglas with \$17,000 in treasure. There was also in private hands \$55,000. The number of Express letters from Cariboo was unusually large.

THE DOUGLAS PORTAGE.—We feel assured the people of Douglas will be pleased to learn that Mr. Bridgman, late of the Royal Engineers, has obtained from Government the contract of keeping in a state of repair the road upon this Portage during the unexpired portion of the present year. Mr. Bridgman's abilities in road making are well known in that section, and we feel satisfied that the contract could not have fallen into better hands.

RED-SKIN RASCALS.—Officer Macnamara arrested four Indians day before yesterday, in whose possession he found four excellent guns, a large and valuable pipe with a gold nugget set in the bottom of the bowl, a revolver, several rugs, and other articles of plunder, taken, it is believed, from settlers on Discovery Island.

No News.—The California steamer had not arrived at Esquimalt when the *Enterprise* left, so that we are still without Eastern news. A rumor was in circulation to the effect that Great Britain and France had recognized the Southern Confederacy.

VICTORIA PAPERS came to hand last evening but contain no news worth stealing. In fact they are full of Governor Kennedy and the Gold Stream diggings.

CUSTOMS RECEIPTS for week ending 19th March, 1864:—Duties, £2114 12 s.; harbor dues, £22 17 s.; head money, £38 8 s.; tonnage dues, £146 1 s.; warehouse fees, 4s. Total, £2322 2s. 2d., or \$11,262 26. Number of passengers entering at this port during same period, 192.

Municipal Council.

Town Hall, March 21st, 1864.

Members Present, the President, Councillors Manson, Armstrong, Robson, Ross, Clarkson, Murray, Wylie, and Calder.

Minutes of previous meeting read and approved.

A requisition from Mr. Scott and others for a public meeting to be called to consider the subject of a Mechanics Institute was read. Several communications upon various subjects were read.

Moved by Coun. Manson, seconded by Coun. Armstrong, and *Resolved*, That the President be empowered to issue Municipal Debentures to the amount of nine thousand five hundred dollars.

Moved by Coun. Wylie, seconded by Coun. Calder, and *Resolved*, That the parties who have fallen timber on the travelled roadway on St. Andrew's street be instructed by the Clerk to remove the same.

Moved by Coun. Murray, seconded by Coun. Manson, and *Resolved*, That the time allowed Mr. Jackson for the completion of his contract of chopping be extended to the 15th April.

Moved by Coun. Ross, seconded by Coun. Murray, and *Resolved*, That lot owners in Ward No. 1 be notified, through the British Columbian, that unless their lots are cleared of all timber and brushwood on or before the 30th April next, the same will be done at their expense.

Moved by Coun. Armstrong, seconded by Coun. Robson, and *Resolved*, That in reply to a requisition from Mr. Scott and others the President be requested to call a public meeting on Thursday evening the 24th inst., at 7½ o'clock. Several addresses were ordered to be paid, and the Council adjourned.

To the Editor of the British Columbian.

SIR,—Your issue of last week contains a letter decanting on the lecture of the Rev. Mr. Macfie delivered here a week ago. If your correspondent thinks that Mr. Macfie made any invidious comparison between himself and his brethren of the same profession he is simply mistaken. The report from which your correspondent quoted is untrue and garbled. As I was present I can testify that the objectionable words cited were not used at all.

J. S. WELLS.

Victoria, V. I., March 19th, 1864.

THE LATE LORD ELGIN.—In commenting on the lamented death of Lord Elgin, the *Dunfermline Press* remarks:—"The presentment with which he left Broomhall, and which, singularly enough, for one usually so reticent, he expressed to so many, has been all too surely realized. Death has of late been busy with the Elgin family. The day before his lordship left on his second mission to China, he laid all that was mortal of his mother in the family tomb. He had scarcely landed in India when the ancestral sepulchre was again opened to receive a brother's dust; and it is but a little while since we saw the son of his hopes smitten by the insatiable archer. And now it is the chief of the house whose fall we are called to mourn. While the country in general most deplore the loss of a statesman so distinguished, the loss fills the heart of his district with a peculiar grief. It seems but yesterday since he stood amongst us full of lusty life, and discoursing of duty and destiny as only a man of the completest culture can discourse. In any circumstances the shock must have been a severe one to Lady Elgin."

WOMEN STRONGER THAN OXEN.—It is related of a certain New England divine who flourished not many years ago, and whose matrimonial relations are supposed not to have been of the most agreeable kind, that one Sabbath morning while reading to his congregation the parable of the sower, in Luke xv, in which occurs this passage:—"And another said, I have bought five yoke of oxen, and I go to prove them; I pray thee have me excused;" and another said, I have married a wife, and therefore cannot come;" he suddenly paused at the end of this verse, drew off his spectacles, and looking round on his hearers, said with emphasis: "The fact is, my brethren, one woman can draw a man further from the kingdom of heaven than five yoke of oxen."

A STUMP ORATOR.—An Ohio stump, while making a speech, paused in the midst of it, and exclaimed: "Now, gentlemen, what do you think?" Instantly a man rose in the assembly, and with one eye partially closed, modestly replied: "I think, sir, I do, indeed, sir—I think if you and I were to stump the country together we would tell more lies than any other two men in the country, sir, and I'd not say a word during the whole time, sir."

THE ESTATE OF THE MARQUIS OF BUTE.—The guardians of the Marquis of Bute are about to spend £2,000,000 in making new docks at Cardiff. The Marquis already owns two docks there, each about a mile long, and vessels are lying in them six and eight deep. He is lord of the manor of the country round Cardiff. In his father's time this property was valueless—it would not even feed sheep; but steam coal mines were discovered there, which proved to be of enormous value. The royalty of these mines and the dock revenue bring in a princely income. The Marquis' waterside property was given his father by the town for the purpose of making docks.

BIRTH.—At Richfield, Cariboo, on the 6th inst., the wife of Mr. William Cunningham of a son.

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect work than these."—*Standard*, June 17, 1862.

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8, 1862.

Watches, adapted for every class, climate and country, wholesale and retail. Chronometer, Duplex, Lever, Horizontal, Vertical, Repeating, Centre Seconds, Keyless, Astronomical, Reversible and Chronograph, from 200 guineas to 3 guineas each.

Clocks.—Drawing Room, Dining Room, Bed Room, Library, Hall, Staircase, Bracket, Carriage, Chimney, Musical, Astronomical, Church, Tower, Stable, Railway, Post-office, Shop, Warehouse, Office or Counting-house, from 1,000 guineas to £1 1s. each.

BENSON'S INDIAN WATCH.—A first-class London-made Lever, Compensation-balance, adjusted for hot climates: Silver Cases, Open Face, £11 11. Hunters, £12 12 Gold Cases, Open Face, £25 0. Hunters, £30 0

FOREIGN WATCHES WARRANTED.—Silver Cases, at £3 3s., £4 4s., £5 5s., £6 6s. each.

Ditto—Gold Cases, £5 5s., £7 7s., £9 9s., £12 12s.

Benson's Illustrated Watch Pamphlet

will be sent Post free for Six Stamps, contains a short history of Watchmaking, with description and prices of every kind of Watch now made, and from which merchants and others can select and have their orders sent safe by post to India, the Colonies, or any part of the world.

NEW WESTMINSTER, WEDNESDAY, MAR. 23, 1864.

Poetry.
RAIN.
When breathing balm o'er flock and fold,
Low winds bring swarms from the South,
When still the water-touch and old
October blith in the month—
I stand beside my cottage door,
And see above me, and before,
Across the skies and o'er the plain,
The shadows of the rain.

O watch them blow from hill to hill,
O'er lonely streams and windy downs,
From thence to thence, till to vill,
And over solitary towns;
Like tinklers from the skirts of night,
Slowly and roundly by a wind of light,
Torn down to music as they roll,
Sobbing as with a soul!

Across the skies and o'er the plain,
Below the silence of the spheres,
Is sighing with a sense of tears;
And list'ning to her voice it seems
Some fancy muffled up in dreams,
Some shapeless thought our visions keep,
Meaning through shades of sleep!

I hear the voice, and cannot doubt
The wisdom of the thought I win—
That all the changeable world without
Must type the changeable world within.

For, standing now between the shower
And sun, I glory to behold
The shadow leave her cloudy bowers,
Transfigured in a mist of gold;
Her trembling train of clouds retreat,
The earth yearns up to kiss her feet—
She wears the many-hued and gay
Robe of the unborn May!

Miscellaneous Items.
A PECULIAR INSTITUTION IN IOWA.—Among the
curious phases of Iowa society is the "Amanna
Society," located in Iowa county twenty miles
west of Iowa city. From the Muscatine Journal
we glean the following facts relative to this com-
munity. It says:—It numbers eight hundred
members, and is divided into seven villages. It
is governed by trustees elected by all the mem-
bers of the society. The society owns twenty
thousand acres of land in one belt. They have
a large stock of horses, sheep and cattle—seven
hundred head of cattle, twelve thousand head of
sheep, and a large number of horses; also two
thousand two hundred acres of land under cul-
tivation. They are to some extent in manu-
facturing, and have a good flouring and saw mill,
and a large woollen factory in successful op-
eration. They card, spin, weave, and full kinds
of woollen goods, running twelve looms—nine
narrow and three for weaving broadcloth. Their
machinery is of the most perfect kind. They
will work up this season from five to six
thousand bales of wool. The members of the
society are of a religious order. Everything
moves on in perfect harmony. When necessary,
the women aid in out-door work. We saw twenty
in one carrot patch, all at work. In the same
field eight teams were ploughing. The society
is destined to become wealthy.

A NATION OF PIGMIES.—In the Bay of Bengal,
on the very high-road of commerce, is a group
of islands thickly covered with impenetrable
jungle, and swarming with leeches in the rainy
and ticks in the dry season. Except a species
of pig, until recently unknown to science, there
are no wild animals that offer any molestation
to man; but to make up for this deficiency the
human inhabitants are among the most savage
and hostile that voyagers have ever encountered.
They may truly be termed a nation of pigmies
being on an average only four feet five inches
high, and weighing from seventy to seventy-five
pounds, but they are well proportioned, and dis-
play an agility and nimbleness truly wonderful.
Their skin is dark, though not as black as that
of the negro, and their faces decidedly ugly.
They go entirely naked, shave the hair off their
head with a piece of bamboo, or broken bottle,
and further increase their unsightly appearance
by daubing themselves all over with a mixture
of red ochre and oil, or covering their persons
towards nightfall with a thick coating of soft
mud to serve as a protection against mosquitoes.
—Home Journal.

AN IDEA OF FAITH.—A female teacher of a
school that stood on the bank of a stream wish-
ed to communicate to her pupils an idea of faith.
While she was trying to explain to them the
meaning of the word, a small boat glided in sight
along the stream. Seizing upon the incident for
an illustration, she exclaimed:
"If I were to tell you that there was a leg
of mutton in that boat, you would believe me,
would you not, without even seeing it yourselves?"
"Yes, ma'am," replied the scholars.
"Well, that is faith," said the schoolmistress.
The next day, in order to test their recol-
lection of the lesson, she inquired:
"What is faith?"
"A leg of mutton in a boat!" was the answer,
shouted from all parts of the schoolroom.

Six thousand coffee plants are growing near
Sacramento. They stand the California winter
well. The State gives \$1,000 for the first 250
pounds of coffee raised in California.

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver,
Stomach and Bowels.

These Pills can be confidently recommended as the
most simple and certain remedy for indigestion, flatu-
lency, acidity, heartburn, colic, constipation, and all the
many maladies resulting from disordered stomach or
bowels. In all diseases it is of primary importance to
set the stomach right. These Pills are purifiers, altera-
tives, and strengtheners of the stomach. They may
be taken under any circumstances. Though powerfully
tonic, and satisfactorily aperient, they are mild in their
operation, and beneficial to the whole system.

**Weakness and Debility, Nervous
Irritability.**

The wholesome effect exercised by these admirable
Pills over the blood and fluids generally is like a charm
in dispelling low spirits, and restoring cheerfulness.
Their general aperient qualities well fit them for a do-
mestic medicine, particularly for females of all ages and
periods of life. They never betray any disagreeable
irritating qualities; they quickly eject all impurities
from the system, and regulate every function of the body,
giving wonderful tone and energy to weak and debili-
tated persons, while they brace and strengthen the ner-
vous system in a most extraordinary manner.

**To Regain Health, Strength and
Vigour.**

Whenever persons find themselves in that state termed
a "little out of health," and there are so many causes
at work to shorten life, it is necessary that Holloway's
Pills, the finest purifier of the blood ever known,
should be at once taken, as they not only rid both solids
and fluids of all morbid matters, but regulate all disor-
ders, and strengthen the frame in a most extraor-
dinary manner.

**Old Coughs, Colds and Asthmatical
Affections.**

These Pills, assisted in their action by rubbing Hol-
loway's Ointment very effectively twice a day upon the
throat and chest, and keeping these parts covered with
the preparation, will be found the most effectual remedy
for asthma, coughs, colds, bronchitis, and influenza.
These remedies tranquilize the hurried breathing,
soothe the irritated air-tubes, and assist in dislodging
the phlegm which stops up the air-passages. This
treatment has proved wonderfully efficient in not only
curing old settled colds, but asthma of many years
standing, and even when patients who were in so bad a
state as not to be able to lie down on their beds test they
are choked with phlegm.

**Derangement and Distention of the
Bowels, Flatulency, Diarrhoea
and Dysentery.**

Any symptoms of the above complaints should be im-
mediately met by appropriate doses of these Pills, ac-
cording to the printed directions. These Pills are a
certain remedy for all the ailments of the alimentary
tract, they secure the thorough digestion of the food,
and act most kindly on the stomach, liver, bowels and
kidneys. As a household medicine they are unrivalled,
and always be at hand.

**Very Important, of Costiveness
Beware.**

Rarely but little notice is taken of costiveness, yet,
at certain periods, it is a sure sign that danger is near.
All who are seized with apoplexy and paralysis, have
previously suffered from costiveness. In the former
case the blood flies to the head, a small vein is ruptured
on the brain, and we know the rest. Let wives com-
pel their husbands, and husbands their wives, never to
go to bed a second night, if the bowels have not been
previously moved during the day, particularly if they feel
heavy and drowsy. A few gentle doses of these fine
Pills will regulate the circulation of the blood, and all
dangerous symptoms.

Holloway's Pills are the best remedy known in the world
for the following diseases:—

Ague	Female Irregu-	Retention of Urine
Asthma	larities	Scrofula, or King's
Bilious Complaints	Fever of all	Evil
Blotches on the	kinds	Sore Throat
skin	Fits	Stone and Gravel
Bowel Complaints	Gout	Secondary Sym-
Cold	Head-ache	ptoms
Constipation of the	Indigestion	Tic Douloureux
Bowels	Inflammation	Tumours
Croup	Jandice	Ulcers
Debility	Liver Com-	Veneral Affections
Dropsy	plaints	Weakness, from
Dysentery	Lumbago	whatever cause,
Erysipelas	Piles	&c., &c.
	Rheumatism

colony. The charges are moderate.

Good Stabling, and Horses constantly on sale at
low prices.

Lytton City, November 10, 1862. no12

New Advertisements.

ALL CURES MADE EASY ! !

HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflam-
mation.**

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighboring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
each of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsey,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat.
This course will at once remove inflammation and ulcera-
tion. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore Throats.
Bunions.	Elephantiasis.	Skin-diseases.
Bite of Mosquitoes.	Fistulas.	Scurvy.
and Sand-Flies.	Gout.	Sore-heads.
Coco-bay.	Glandular Swel-	Tumors.
Chiefo-foot.	lings.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.	

Sold at the establishment of Professor HOLLOWAY,
244, Strand, (near Temple Bar) London; and by all re-
spectable Druggists and Dealers in Medicines through-
out the civilized world, at the following prices:—1s.
1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

* * * There is a considerable saving by taking the
larger sizes.

N. B.—Directions for the guidance of patients in
every disorder are affixed to each Pot.
